## ORDINANCE FOR IMPOSITION OF LICENSES IS PASSED

Council Holds An Interesting Session In Which Two Important Matters Are Taken Up, Both Calling Forth Much Discussion.

### APT. POLLOCK PRESENT

Representative Of Water Company Responds To Invitation To Appear--Answers Several Questions.

After holding the matter over for post a year, council last night in a regular adjourned meeting passed the ordinance through the third final reading. There was considerable discussion over the matter and it was placed in the hands of the finance committee at one time to fergo some charges and then at the tion of Hein and Schmieler was en up for reconsideration. All the mbers were present at the meeting septing Frew.

The ordinance was taken up and d by Clerk Nickeson, and a motion s put by Hein and Schmieler that pass third and final reading. A e was taken by roll call and it was io, the ayes being, Frye, Schmieler Jones and the nays being, Gott- d, Hein and Piersol. A motion s then made to place it in the hands e ordinance committee, to make a nges and report back to coun- next meeting. The dis- sion of the matter was not ended ever and by unanimous vote was en up for reconsideration, and the ges which it was deemed ssary made. The part over which e was most objection by certain bers of council was the part of section concerning the license of bucketers and bawlers on the et. The ordinance as it had been arded read that for a one horse on, the owner would be required y \$5 a day, \$25 a month and \$35 a year, and for a two horse wagon a year. This was regarded as inconsistent and after talking the matter at considerable length, as changed to \$5 a day for both le and double teams, and \$10 a for a single team and \$60 a year a double team, the license for a th being left out. Another of the section to be discussed at th was that concerning the ex- ing of tax of those peddling l vegetables and other products eir farms and the hawking and ling of bread, fresh fish, oysters, meats, milk and flowers. This s stricken out entirely and the se left as it is at the present.

The ordinance was then passed otion of Gotthold and Piersol. othor ordinance to be taken up ight was the powder ordinance, provided for the handling and ng of powder and other high ex- ves in the town. After a few ges were made it passed first ng. The ordinance makes the y of the stuff in the town much er. The art concerning the of dynamite came in for the discussion. At the one time ding to its wording a merchant ave on hands but 50 pounds of explosive and an individual who e more than one pound in his at one time must have a permit. erintendent Pollock of the Char-

leroi Water company was present at the invitation of the council, the special purpose for which he was brought here being to learn whether the company would allow a meter to be put in for the fire plugs at the Macbeth Evans glass plant. This he declared the company would not allow but said that he would take the matter up with them. A number of questions were fired at him concern- ing the service at various places in the town, some of which he answered, and some of which he did not.

## MRS. PHIPPS HAS A NARROW ESCAPE

Yesterday at Denver, Col., a former Charleroi woman, the divorced wife of Lawrence C. Phipps, Mrs. Genevieve Chandler Phipps the daughter of C. H. Chandler of Charleroi had a narrow escape from death, at the hands of a desperate woman who threatened to blow her up with dynamite. The person who made the threat was finally arrested through a little trickery and is now being held in jail at Denver. She is known as Mrs. J. R. Cones, and has since the 6th of November been occupying a room at the American house, Denver.

The woman has made repeated attempts to gain admittance to Mrs. Phipps home but had failed. Yesterday she succeeded in jumping in Mrs. Phipps automobile as she was driving an automobile through City park. After getting in the automobile, she talked quietly to Mrs. Phipps for a time and professed to be a magazine writer. Soon however she produced some dynamite with caps and threatened if Mrs. Phipps did not within an hour give her the sum of \$25,000, she would fire the dynamite and blow her to eternity. Mrs. Phipps was directed to drive to the Wolcott school for her daughter. After getting the girl at the school, the automobile was driven to the office of the Internal Trust company. Explaining to the woman that she would have to get the money in the place Mrs. Phipps got out of the automobile and went into the bank, where she told her danger to Special Officer McDonald, who went out to the automobile and after a parley succeeded in getting the child. When the officer returned the woman threw the dynamite at him but luckily it did not explode, and he arrested her and turned her over to the police.

## ASSAULT AND BATTERY, TWO PLUNKS AND COSTS

Yesterday morning Hamilton Johnson was before Justice of the Peace Wilson charged with assault and battery, the prosecutor being Bessie Perry. The parties are from North Charleroi. Johnson, it is said, abused his wife, Mrs. Friday Johnson, who was unable to appear, from the beating which she received at the hand of her husband, hence the daughter, Mrs. Perry, brought suit. He was fined \$2 and cost.

Simply Delicious.

That's the verdict of every one who has tasted one of Wagner's oyster stews, they are served daintily, cooked properly and appeal to everyone who likes to eat good things. Hot coffee, chocolate, cocoa and all kinds of sandwiches at Wagner's, 415 McKean avenue.

## DISMISSES APPEAL OF SUPERVISORS

Judge McIlvaine Hands Down Decision In Carroll Township Case.

### TAXPAYERS TO BE HEARD

In the matter of the appeal of the supervisors of Carroll township from the audit of their account for the year ending March, 1908, made by the township auditors, Judge McIlvaine yesterday handed down an opinion dismissing the appeal at the costs of the appellants.

This is one of the actions growing out of the mixup in the accounts of that township. An appeal of the taxpayers from this same audit is yet to be heard by the court and in the opinion handed down the court's second assignment of error alleged in the auditors' report is not passed upon, as it will be dealt with more fully when the taxpayers' appeal is before the court.

Facts concerning the mixup in Carroll were stated in these columns yesterday. In the appeal just decided the parties agreed to the taking of testimony and the case was submitted to the court upon the testimony taken. The assignments of error to the township auditors' report are as follows:

"1.—The auditors wrongfully refused credit for the sum of \$150 paid to A. J. Fisher for his services as secretary of the road of supervisors for two years and wrongfully directed the repayment thereof."

"2.—The said auditors wrongfully refused credit for the sum of \$334.87 erroneously charged as cash in the hands of the supervisors, to be refunded by reason of errors."

## BOWLING MATCH ON COLONIAL ALLEYS

In a match game of duck pins last night on the Colonial alleys, a team captained by Frank Kelly won three straight games from a team captained by Mr. Wolfe, making a total of 1230 pins for the three games. Captain Wolfe of the opposing team had high score with 98, making this score both in the first and last game, he also had high average with 94 which is knocking them over. The Charleroi Bowling team goes to Fayette City tonight for a match game of both ten and duck pins.

## Recognized As Murderer Before Receiving Sentence

John Ramsey Alias John Stevenson Entered Plea of Guilty On Charge Of Entering And Burglarizing DeGarmo Home.

Yesterday before the sentencing by Judge McIlvaine of John Ramsey, alias John Stevenson, and John Brummer, to spend ten years in the penitentiary, and a fine of \$1 and costs, it was learned that the former was a murderer and for sometime a member of a band of desperadoes of Fayette county known as the Cooley gang. The men with two others were charged with the robbery of the DeGarmo home in Fallowfield township on the night of August 10. They had previously entered pleas of guilty. There remains two yet to be tried in connection with the robbery, William Bennett and Thomas Deets.

The identification of Ramsey as the one who killed a foreigner at Benwood W. Va. four years ago was made by an old man by the name of

Tomlinson. When he spoke the name by which the man had been known at Benwood, Dewar Nickeson, the condemned man turned red and was greatly embarrassed.

That the man's name was Frank Ramsey and that he was born at Brownsville was attested to yesterday at Washington by Policeman McElDowney of Charleroi, who formerly knew the man. He is about 40 years of age.

A reward had been offered for his apprehension by West Virginia authorities. Last night the police at Benwood were communicated with and said that they would take the matter up and if Ramsey be the one who committed the murder they have him properly punished. Ramsey has in the past served a sentence of eight or ten years in the penitentiary.

## INSTALLATION SERVICES FOR NEW MINISTER

Wednesday night at the First Presbyterian church, the installation services of the new pastor, Rev. J. T. Hackett will take place, and elaborate preparations are being made by the members for the affair. There will be pastors of different churches here to take part in the exercises and a nice program has been arranged, consisting of addresses and music. The principle address of the evening will be made by Rev. W. R. Farmer, an instructor in the Western Pennsylvania Theological seminary in Pittsburgh. Mr. Farmer is a speaker of note. He is the son of the first pastor of the local church and classmate of the present pastor, Mr. Hackett. The charge will be given to the people by Rev. W. C. Wycoss, D.D., of the Bethel Presbytery, Pittsburgh. The charge to the pastor will be given by Rev. William McKee of the First Presbyterian church at Monongahela. The installation prayer will be made by the Rev. Perrin Baker of Belle Vernon.

The exercises promise to be of more than ordinary interest and the public as well as the members of the church have been tendered an invitation to be present.

## CASES HEARD IN CRIMINAL COURT

"We want people to know that robbery is not a healthful employment in Washington county," was the stinging remark of Judge J. A. McIlvaine after passing 12-year sentences on Alex. Watson and George Matson for highway robbery. Watson and Matson were charged with holding up Ray Anderson on the old Pittsburgh pike on the night of September 28, and relieving him of his watch and revolver; also of holding up Mr. and Mrs. William McIntyre on the connecting railroad on the night of October 3 and securing \$30 from Mr. McIntyre. After being out a short time the jury returned a verdict of "guilty as indicted." The accused had nothing to say in their behalf and the court imposed a six-year sentence in each case, making 12 years in all.

The first case called yesterday was that of Samuel McGill, colored, of Bentleyville, charged with assault and battery on his wife, Annie McGill. McGill created much merriment by acting as his own attorney. Mrs. McGill testified that her husband came home on the night of October 11 in an intoxicated condition and struck her twice with his fists and she was obliged to flee for safety. She also testified that he had threatened to cut her heart out with a razor. The jury after a short deliberation returned a verdict of guilty, and the court imposed a sentence of six months to the workhouse.

Wagners.

Are serving hot chocolate, coffee, cocoa and all kinds of sandwiches. Oysters are a specialty with us and to eat one of our oyster stews is a treat, they are delicious. Wagner's, 415 McKean avenue.

## SIXTY-ONE APPLY FOR ADMISSION

Night School Is Successfully Started In Fifth Street Building.

### EXTRA TEACHER NEEDED

The One Man It Is Stated Cannot Handle All The Classes.

The night school started off very successfully last night in the recently prepared room in the Fifth street school building, there being sixty-one applications for admittance to the school. These seemed to take an interest in the work and it is thought that nearly all of them will keep up with the studies. Among these were eighteen girls, and tonight it is understood this number will be increased.

Among those who appeared last night were persons of various ages, ranging from fourteen to sixty. Of these there were but four who could not speak or understand the English language.

There is a likelihood that there will have to be another teacher elected, for if the interest continues and the attendance does not become less it will be necessary to have another instructor. With the present number it is impossible for the one man to properly teach all the classes. The school is like an ungraded country school, and the classes range from those who are little more than able to distinguish the letters of the alphabet to those who are advanced almost as far as the High School. If the school board finds that there are enough pupils appear tonight, they will meet at once to elect a new instructor.

## ARRANGING FOR RALLY OF SUNDAY SCHOOL

Last night the teachers and officers of the First Christian church met at the home of Theodore J. Allen at North Charleroi, and made arrangements for a Sunday school rally to be held on Sunday November 22nd. On that day there will be a special program rendered by the Sunday school consisting of music and addresses and the Sunday school will try to have record number in attendance.

Taxes Must be Collected.

Tax Collector B. L. Parsons, has been finally instructed to file liens on all properties for 1906 taxes remaining unpaid, after Nov. 14, 1908. Payment of 1906 occupation taxes must be arranged for not later than Nov. 30, to save extra costs. Office 502 Fallowfield avenue.

Henry.

Thomas A. Henry a well known resident of this place died at his home on Seventh street of paralysis, this morning at 7:30 o'clock. The funeral will be from the Lutheran church Friday afternoon at 2 o'clock. Interment in the Charleroi cemetery.

Mr. Henry was one of the pioneers of Charleroi. He is survived by a wife and three daughters.

## Forestry in Japan.

Just at the time when this country  
is beginning to struggle with the  
problem of husbanding forest resour-  
ces, of protecting its mountain slopes,  
and of improving the waterways, it  
is interesting to know that the Jap-  
anese have successfully attacked the  
same problem, before the land suffered  
severely from the evil effected follow-  
ing deforestation. The farsighted  
people of Nippon have foreseen the  
results of the destruction of their ex-  
tensive mountain forests, and have  
safeguarded themselves by placing all  
of these under government control.

The practice of forestry has been  
carried on in Japan for a longer time  
than in any other country. For 1,200  
years the people of Japan have been  
planting and growing forests, with a  
success that has been a little short of  
marvelous. Under careful manage-  
ment, the Japanese forests yield very  
high financial returns. This high  
yield is only made possible by the  
close utilization of every bit of the  
tree so that scarcely a twig is wasted,  
and by the improvement of the growth  
of their forests by carefully conducted  
thinning the tending. The woods are  
first thinned at the age of thirteen  
years, and then every five years after  
that up to the time of the final har-  
vest, at 120 years.

It was with the opening up of the  
hitherto inaccessible mountain forests  
that the Japanese government became  
most intensely interested in forestry.  
The mountains were still government  
land, so all that was necessary to pro-  
tect them was to place proper re-  
strictions on the sale and in cutting  
of timber. This was effected by de-  
claring the forests on the steep slopes  
as reserved forests, in which the only  
cutting should be done under govern-  
ment direction. The forests on  
agricultural lands, not needed for pro-  
tection, are classed as available for-  
ests and here the cutting is not so  
carefully restricted.

Thus Japan has effectively prevent-  
ed the stripping of her mountain  
slopes before any great damage has  
been done. In some districts, where  
the mountains are near the towns,  
the steep slopes have already been  
cleared, and this has resulted in floods

and the washing down of the soil from  
the slopes on to the farm lands. But  
these cases have been exceptional, and  
have merely served as a warning,  
which Japan has heeded before it was  
too late to prevent widespread de-  
struction.

## The County Institute.

The institute at Washington this  
year bids fair to be the best in the  
history of the Washington county  
schools. Superintendent Crumrine is  
working hard to complete a program  
that will eclipse anything that has  
ever been had and thus cause an in-  
crease of interest. The institute is  
the yearly gathering of the teachers  
and principals to an appointed place  
where there has been engaged at the  
expense of the county, instructors and  
entertainers. The purpose of the in-  
stitute is for the improvement of the  
teachers in the science and art of edu-  
cation, and according to the State  
laws must continue in session at least  
five days.

It is not necessary for the teacher  
of the Charleroi schools to attend the  
county institute, for the local schools  
are independent of the county and if  
they so desire may have a institute  
of their own. This year the teachers  
of this place will as usual make the  
trip to Washington to attend the in-  
stitute of the county. This was deemed  
the more advisable by the directors  
for the reason that the instructors at  
the county institute are better than  
those that the local board could afford  
to engage. It is possible that later  
in the year that there will be a rally  
here similar to that held last spring  
in the school hall.

## The Wise Man.

The wise man does not too greatly  
burden the ear of his neighbor with  
the narrative of his calamities. These  
things are of almost infinite im-  
portance to him and they are with him  
day and night. If he is disposed to  
discuss them with all his friends and  
neighbors it is because of the truth  
that out of the abundance of the  
heart the mouth speaketh. But if he  
have a keen eye he will speedily dis-  
cern that his remarks are falling  
upon stony ground. For the person to  
whom he is talking also has his deep  
grief for his sore trouble or his lofty  
ambition and he would much prefer to  
talk about them. There is much sym-  
pathy in the world. Of course there  
is. But there is likewise a good deal  
of selfishness. It is not uncommon  
for every man to think of his own  
things and not on those of his neigh-  
bor. And when two men of that sort  
come in contact with each other there's  
likely to be considerable misunder-  
standing between them.

## Another Important Deal.

The recent coal deal in Greene  
county, in which J. V. Thompson  
acquired 25,000 acres of coking coal is  
but another step toward the develop-  
ment of the rich field in that county.  
For this is what it will in reality  
mean. There is little doubt that Mr.  
Thompson will develop the lands as  
soon as he sees fit and or at least sell  
to some one who will open up mines  
there. This of course will mean the  
extension of railway lines a little  
farther into the interior of the county.  
The Greene county residents view  
the sale of the coal in some places  
with apprehension, for they fear that  
with the opening up of mines, will  
come destruction to their rich farms.

## Electric Sparks.

The distances of nations are  
measured not by seas, but by ignor-  
ance, and their divisions determined  
not by dialects, but by enmities.

The field is open to talent and merit  
is sure of its reward. The gifts  
with which industry is crowned are  
her own.

Sloth makes all things difficult, but  
industry all things easy.

Even if Charlie Bentley does not  
get the Speakership of the house at  
the next session of the Assembly at  
Harrisburg, he can be relieved by  
the thought that he at least did some  
good in running for the position, viz.,  
provide the Observer, Reporter, of  
Washington, and the Notes, of  
Canonsburg, something to write  
about.

As proof that the President is  
chosen by the intelligent voters, those

who did not choose him are seen pay-  
ing freak election bets.

The Outlook announces that with  
Roosevelt's connection with the paper  
its editorial management will not  
change. That sweet dream will last  
until a day or so after March 5.

Uncle Joe Cannon, per his recent  
interview, is too unprogressive for  
this age. We want our forests reser-  
ved and also our coal and our water  
and other natural resources. And the  
Panama canal completed within the  
shortest time possible.

President elect Taft expects to take  
a few week's rest, but he will have  
to go far into the woods to get away  
from those who have all manner of  
advice to give.

Brayn's hope that the people will  
still adopt his policy must refer to his  
policy with regard to the man they  
should elect President. For, some  
time ago, it was his assertion that  
Roosevelt had forcibly adopted his  
policies; and the people have certainly  
adopted the Roosevelt sort.

Politics will now take a back seat  
in the news columns to give prosperity  
a chance to command everybody's  
attention.

No desire to start trouble right  
away, but wish the new president  
would take notice that strictly fresh  
eggs are sixty cents a dozen. Either  
the hens or the trust certainly need  
looking into. Who had the probe last?

Montreal aviator says he intends  
to drop off the Flatiron building, New  
York, in his glider. Too thin. Not  
even such a promise will make men  
keep their eyes in the air while pass-  
ing that structure.

There are two reasons why some  
people don't mind their own business.  
One is that they don't have any mind  
and the other is that they don't have  
any business.

Charleroi has strenuous objections  
to being behind in anything, especially  
when there is such an old town as  
Monongahela in the lead. That's  
why the workers in the Christian  
church of this place are hunting so  
tremendously to beat out in the Sun-  
day school contest.

## PACKET COLUMBIA IS LAID OFF

The steamer Columbia, the last  
packet operating out of Pittsburgh,  
gave up the unequal struggle between  
low stages in the upper pools in the  
Monongahela river and acid conditions  
of the water in the lower pools yester-  
day. The crew was paid off and the  
packet tied up at the wharfbat  
to await a rise in the rivers.

## GIVES INTERESTING TALK AT CHURCH

Last night at the Baptist church,  
Rev. Furman of Library gave an in-  
teresting talk in the interest of home  
and foreign missions. There are at  
present various ministers touring the  
country in the behalf of the missions  
it being the effort of a national Baptist  
society to raise a large sum in the  
United States, so that missions  
might be established and more suc-  
cessfully carried on in this and other  
countries.

## Charter Has Been Placed on Record

The charter of "L'Union Des Tra-  
vailleurs Publishing company," of  
Charleroi, has been placed on record.  
The company is formed for the pur-  
pose of printing and publishing. The  
company is capitalized at \$10,000,  
divided into 1,000 shares at a par  
value of \$10 a share. The directors  
of the corporation are August Mahieu,  
August Bissiaux, Louis Gozouli, Fer-  
nand L. Meutzer and Zenoba Del-  
warte.

## To Hold Euchre.

The social committee of the Char-  
leroi council, No. 1240, Royal Arcanum  
have issued invitations for a Euchre  
to be given in the lodge room in the  
Charleroi Savings and Trust company  
hall, Thursday evening, November 12.  
Playing will begin promptly at 8:15  
o'clock. The committee is composed  
of the following members, Bert  
Eckel, Louis Beigel, G. Thomas Bar-  
ger, Joseph Allsopp and Joseph M.  
Brand.

## ROAD PETITION IS ACTED UPON

A petition for a road in Carroll  
township beginning at a point where  
the road leading from Pigeon creek  
intersects another road at a point on  
the west side of and near the old  
Galbraith school house and extending  
thence to a point in the ridge road  
leading from North Charleroi to Mon-  
ongahela at a gate near the dwelling  
house on the lands of D. W. Craven  
was made to the court yesterday.  
W. E. Ward Charles Vanvorhis and  
Josiah Blythe appointed viewers.

## VIEWERS ARE APPOINTED

Upon the petition of Sarah J. Os-  
borne of Charleroi, for viewers to  
assess damages occasioned to her  
property by the reason of change of  
grade on Crest avenue, the court yes-  
terday at Washington submitted the  
following panel: Taylor Foreman,  
Henry Sheets, J. H. Bowers, John  
H. Moffitt, Samuel Mitchner, Charles  
O. Frye, Kerfoot Daly, Joseph God-  
dissart, William Coles, W. R. Mc-  
Kean, John L. McKean, John W.  
Berryman, W. D. Pollock, M. Wells,  
Cary Piper.

## DEMONSTRATIONS BRING MANY

Mr. C. Dewar of Newcastle, In-  
diana, is here in the interest of the  
Hoosier Kitchen Cabinet now being  
demonstrated at W. B. Pfeighardt's  
store, 530-32 Fallowfield avenue.

The display of these very useful  
kitchen cabinets is an elaborate one  
and Mr. Dewar has not experienced  
any difficulty in interesting the house-  
keepers of this and neighboring towns  
in the Hoosier Cabinet.

The demonstration yesterday and  
today was attended by big crowds  
and the sale of cabinets has been very  
large. Each person is entitled to a

## Standing of Clubs.

The standing of the clubs following  
the results of the soccer games Sat-  
urday in the Monongahela Valley  
league follow:

	W	L	Tie	Pts
Roscoe	6	1	0	12
Dunlevy	5	1	1	11
Braddock	4	2	1	9
Charleroi	3	2	2	8
Donora	2	4	1	5
New Eagle	2	5	0	4
Gallatin	5	2	0	4
McKeesport	1	5	1	3

Games this week. Nov. 14—New  
Eagle at Braddock. Dunlevy at  
Gallatin. McKeesport at Charleroi.  
Donora at Roscoe.

John Trubeck who was badly in-  
jured in the explosion at Donora last  
week, died in the Memorial hospital  
of Monongahela yesterday. When  
taken to the institution it was evident  
the man's injuries were mortal.

Trubeck was a Slav and was 32  
years of age. The remains were  
taken to Donora today for interment.

## Will Bring Results.

Mail Wants and Lost adds bring  
results. Recently a man from an up-  
river town lost a satchel. It was  
advertised in the Mail. The satchel  
was found and yesterday the gentle-  
man came to this office secured his  
property and paid for the add, profess-  
ing himself much pleased with the  
success of the small add.

## Canceled the Show Booked for Tonight

On account of Manager Coyle not  
desiring to bring a show to this place  
that is not of the best, the perfor-  
mance for tonight, "The Power of the  
Cross," has been canceled and will  
not appear. Those holding tickets  
for this performance should save them  
for the performance Thursday night  
when "The Boy of The Streets" will  
be produced. This play is one of the  
higher kind and wherever played  
brings large crowds. The story is one  
from real life and is of heart stirring  
interest.

## How Queen Bess Dined.

The setting out of the dinner of Queen Elizabeth was a ceremonious function. First came a gentleman with a rod, followed by a gentleman carrying a tablecloth, which, after they had knelt reverently three times, was spread upon the table. Then came two others, one with a rod, the other with a saltcellar, a plate and bread. They knelt three times, placed the things on the table, knelt again and retired. Next came a lady in waiting, followed by a second. The first lady, dressed in white, after kneeling three times, approached the table and solemnly rubbed the plates with the salt. Then entered twenty-four yeomen of the guard clad in scarlet and each carrying a dish of gold. These dishes were placed upon the table, while the lady taster gave to each of the guards a taste from the dish he had brought in for fear of possible poison. These guards were selected from the tallest and stoutest men in all England. At the close of this ceremony a number of unmarried ladies appeared and with great solemnity lifted the various dishes and carried them to the queen in her private apartments. The queen dined and supped alone, with few attendants, and it was seldom that any one was admitted at this time, and then only at the intercession of some one in power.

## Coal Used by Romans.

It is believed by some historians that coal was used by the Romans on the continent and by the Britons on the island before the arrival of Caesar. As early as 1254 Henry III. granted a license to dig coal near Newcastle, but a few years later the use of coal was forbidden in London, the smoke being deemed prejudicial to public health. In 1306 the London gentry petitioned the king against its use, declaring that in spite of his royal order certain malicious persons persisted in burning it. Coal began to be brought from Newcastle to London in 1381, during the reign of Richard II. By the year 1400 coal was commonly burned in London as a fuel, though 200 years later, in the reign of Charles I., its use was far from being general throughout England. Anthracite coal, which, except the diamond, is the purest form of carbon known, was first used by a Cornish blacksmith named Gore A. 1708 and as a domestic fuel by Judge Jesse Fell of Wilkesbarre, Pa., in 1808.

## A Fairy Tale Kingdom.

The kingdom of Uganda is a fairy tale. You climb up a railway instead of a beanstalk, and at the end there is a wonderful new world. The scenery is different, the vegetation is different, the climate is different, and, most of all, the people are different from anything elsewhere to be seen in the whole range of Africa. Instead of the breezy uplands we enter a tropical garden. In place of naked painted savages clashing their spears and gibbering in chorus to their tribal chiefs a complete and elaborate polity is presented. Under a dynastic king, a parliament and a powerful feudal system an amiable, clothed, polite and intelligent race dwell together in an organized monarchy upon the rich domains between the Victoria and Albert lakes. —Winston Churchill, M. P., in Strand Magazine.

## A Promise Unfulfilled.

O. Henry, the well known story writer, once promised the editor of a magazine that he would deliver a short story to him on the following Monday. Several Mondays passed, but the muse was refractory, and the story was not forthcoming. At last the wrathful editor wrote this note:

My Dear O. Henry—If I do not receive that story from you by 12 o'clock today I am going to put on my heaviest-soled shoes, come down to your house and kick you downstairs. I always keep my promises.

Whereupon O. Henry sat down and wrote this characteristic reply:

Dear Sir—I, too, would keep my promises if I could fulfill them with my feet. —Success Magazine.

## A Defect.

A little girl was playing with a girl friend of her own age on the porch of her home. An elderly gentleman, her mother's father, and an elderly lady, her father's mother, were sitting on the porch talking pleasantly with each other. The little girl had often wished her grandparents were of the same name, like other children's grandparents. Presently the little guest remarked, "What a nice grandmother and grandfather you have."

"Oh, yes," she said, with a sigh, "but they don't match."

## An Explanation.

"How long has this restaurant been open?" asked the would-be diner.

"Two years," said the proprietor.

"I am sorry I did not know it," said the guest. "I should be better off if I had come here then."

"Yes?" smiled the proprietor, very much pleased. "How is that?"

"I should probably have been served by this time if I had," said the guest, and the entente cordiale vanished. —Harper's Weekly.

## Cause and Effect.

Old Hanks—When I came to this town sixteen years ago, real estate in the block where I live was higher than it is now.

Old Hewitson—It would be so in any block where you'd settle down. —Chicago Tribune.

## Generous.

Mr. Smith (in street car)—Madam, take my seat. Mrs. Jones (who has been standing fifteen minutes)—No, thanks; I get off at the next corner. Smith—That's all right. So do I.

It is unpleasant to turn back, even though it be to take the right way. —German Proverb.

## AN OLD INDIAN MYTH

It Tells a Curious Story About the Creation.

## MOUNT TAHOMA MADE FIRST.

Then Came the Trees, the Birds, the Fishes and All the Animals. With the Grizzly Bear the Last and the Greatest of All—The Origin of Man.

The Indians say that the Great Spirit made Mount Tahoma the first of all. Boring a hole in the sky, using a large stone as an anvil, he pushed down snow and ice until they reached the desired height, then stepped from cloud to cloud down to the great icy pile and from it to the earth, where he planted the first trees by merely putting his finger into the soil here and there. The sun began to melt the snow, the snow produced water, the water ran down the side of the mountain, refreshed the trees and made rivers. The Great Spirit gathered the leaves that fell from the trees, blew upon them, and they became birds. He took a stick and broke it into pieces. Of the small end he made fishes, and of the middle of the stick he made animals, the grizzly bear excepted, which he formed from the big end of the stick, appointing him to be master over all the others.

Indeed, this animal grew so large, strong and cunning that the Creator somewhat feared him and so hollowed out Mount Tahoma as a wigwam for himself where he might reside while on earth in the most perfect security and comfort. So the smoke was soon to be seen curling up from the mountain where the Great Spirit and his family lived and still live, though their hearts fire is alight no longer, now that the white man is in the land. This was thousands of snows ago.

After this came a late and severe springtime, in which a memorable storm blew up from the sea, shaking the huge lodge to its base. The Great Spirit commanded his daughter, then little more than an infant, to go up and bid the wind to be still, cautioning her at the same time not to put her head out into the blast, but only to thrust out her little arm and make a sign before she delivered her message.

The eager child hastened up to the hole in the roof, did as she was told and then turned to descend, but her curiosity impelled her to look at the forbidden world outside and the rivers and trees, at the far ocean and the great waves that the storm had made as hoary as the forest when the snow is on the firs. So she stopped and put out her head to look. Instantly the storm took her by the long hair and blew her down to the earth, down the mountain side, over the smooth ice and soft snow, down to the land of the grizzly bears.

Now, the grizzly bears were then somewhat different from what they are at the present time. In appearance, it is true, they were much the same, but they walked then on their hind legs like men and talked and carried clubs, using the fore limbs as men use their arms. At the foot of the mountain, at the place where the child was blown to, lived a family of grizzlies. The father grizzly was returning from the hunt with his club on his shoulder and a young elk in his hand when he saw the shivering little waif lying on the snow with her hair all tangled about her.

The old grizzly, pitying and wondering at the strange, forlorn creature, lifted it up and carried it in to his wife to see what should be done. She, too, was pitiful and fed it from her own breast, bringing it up as one of their family. So the daughter of the Great Spirit grew up, and the eldest son of the old grizzly married her, and their offspring was neither grizzly nor Great Spirit, but man. —Forest and Stream.

## An Original Oath of Allegiance.

In the old days when the Spanish province of Aragon was a proud and independent monarchy the people used when choosing their king the following singular form of election:

"We, the freeborn inhabitants of the ancient kingdom of Aragon, who are equal to you, Don Philip, and something more, elect you to be our king on condition that you preserve to us our rights and privileges. If in this you should fail we own you for our king no longer."

## The Red Ferns.

"Stop the auto!"

"But, sir—"

"I think I saw some red ferns."

"Better lemme keep on, boss," advised the chauffeur earnestly. "Them red ferns is the local constable's whiskers." —Washington Herald.

## The Open Window.

The best part of a modern house is its windows. To keep these open day and night and to make the air inside approach as nearly as possible the air outside should be the first business of the housekeeper. —Good Health.

## A Precaution.

"Every man is the architect of his own fortune," quoted the wise guy.

"Yes, but he wants to keep solid with the building inspectors," added the simple mug. —Philadelphia Record.

## Reason Enough.

The Butler—What makes the missus in such a bad humor this morning? The Maid—Some woman told her a secret last night, and she's forgotten it. —London Telegraph.

The web of our life is a tangled yarn, good and ill together. —Shakespeare.

## AFTER THE GRIPPE

Vinol Restored This Man's Strength

"Several years ago I was attacked by a severe case of grippe, which left me with a hacking cough, soreness in my chest, and bronchitis. I took nearly every kind of cough syrup sold on the market, besides medicine given me by physicians.

I received no permanent relief until my druggist asked me to try Vinol, and after taking three bottles I was entirely cured.

I believe Vinol to be the greatest blessing ever offered to the public, as it does what is claimed for it." R. E. R. Hicks, Maplesville, Ala.

The reason Vinol cures chronic coughs, colds and pulmonary troubles is because it contains tonic iron and all the healing and body building elements of cod liver oil but no oil.

Vinol is also unexcelled as a strength builder for old people, delicate children, weak and run-down persons, and after sickness.

# BERRYMAN'S

Distinguished Showing of Handsome Tailored Suits At \$25.00

## The Season's Choicest Creations

That the particular woman whose position demands that she be well dressed may fully realize the advantage of supplying her needs here. We have collected for this week's selling a most distinguished showing of tailored suits at \$25.00. The styles are exclusive and represent the best work of noted artists. Through weeks and months of steady wear these suits will hold their shape. The best quality of linings and casvass are used, and the satin that is used in the coat as lining is so reliable that we can highly recommend it.

These suits are made of imported worsteds, plain broadcloths, herringbone stripe and fancy all wool fabrics. Colors are black, brown, navy, green and new gray—jackets lined with best satin—strape I and tailored in a way that appeals to particular dressers.

In justice to your own interest this offering demands your closest consideration.

## News From the Millinery Department

It is essential that your hat and costume match—with this fact in mind this store can be of the greatest service to you. The collection of stylish millinery is sufficiently extensive to please anyone. The mid-season showing of new hats will be on exhibition this week. Miss Ward will take special pains to see that you get special attention.

a lot for Style in your clothes, that's all the more reason for being particular to buy "ALCO SYSTEM CLOTHES."

Some clothes are "long" on quality and "short" on style, or vice versa; "ALCO" Clothes are "long" on both quality and style, but in buying a suit or overcoat, you pay only for quantity—the style is an added attraction that places "ALCO" Clothes ahead of other makes.

We don't say much about the price, for that is the last thing to be considered, and when you have once inspected "ALCO SYSTEM CLOTHES" you'd buy them if the price was double.

Men and Young Men's Suits and Overcoats in the widest variety of styles, materials and patterns, \$10.00 to \$25.00, according to quality. Furnishings of all kinds for Men and Boys.

## SKIN TORTURES

Thousands of wretched people are miserable—driven almost mad by the terrible itching and burning sensation of Eczema and other skin diseases; many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are caused by little germs that attack the skin externally, which can be rooted out in a hurry, leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief—but a clearing of it all away absolutely and permanently.

## THE D. D. D. PRESCRIPTION

a specific formula, put up in sealed bottles with authentic label, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy.

Cleansed within one month.

For a number of years my husband has been suffering with a terrible case of eczema. He had consulted with the best skin specialists in the city, but they could not even stop the itching. I was told by a friend of the D. D. D. treatment and began using it at once; the first few applications eased the itching, and in a month's time his flesh was as clear as could be.

## ORDINANCE FOR IMPOSITION OF LICENSES IS PASSED

Council Holds An Interesting Session In Which Two Important Matters Are Taken Up, Both Calling Forth Much Discussion.

### SUP. POLLOCK PRESENT

Representative Of Water Company Responds To Invitation To Appear--Answers Several Questions.

After holding the matter over for a year, council last night in a regular adjourned meeting passed the ordinance through the third and final reading. There was considerable discussion over the matter and it was placed in the hands of the finance committee at one time to bring some charges and then at the suggestion of Hein and Schmieler was taken up for reconsideration. All the members were present at the meeting excepting Frew.

The ordinance was taken up and read by Clerk Nickeson, and a motion was put by Hein and Schmieler that it pass third and final reading. A vote was taken by roll call and it was carried, the yeas being, Frye, Schmieler, Jones and the nays being, Gottlieb, Hein and Piersol. A motion was then made to place it in the hands of the ordinance committee to make a change and report back to council at next meeting.

The discussion of the matter was not ended, however and by unanimous vote was taken up for reconsideration, and the yeas which it was deemed necessary made. The part over which there was most objection by certain members of council was the part of section concerning the license of hucksters and hawkers on the street. The ordinance as it had been passed read that for a one horse wagon, the owner would be required to pay \$5 a day, \$25 a month and \$55 a year, and for a two horse wagon \$10 a day, \$50 a month and \$110 a year. This was regarded as inconsistent and after talking the matter at considerable length, it was changed to \$5 a day for both single and double teams, and \$10 a day for a single team and \$20 a day for a double team, the license for a huckster being left out. Another part of the section to be discussed at that time was that concerning the taxing of tax of those peddling vegetables and other products on their farms and the hawking and selling of bread, fresh fish, oysters, meats, milk and flowers. This was stricken out entirely and the section left as it is at the present time.

The ordinance was then passed and other ordinance to be taken up last night was the powder ordinance, provided for the handling and storing of powder and other high explosives in the town. After a few minutes were made it passed first reading. The ordinance makes the storing of the stuff in the town much more difficult.

The art concerning the use of dynamite came in for the discussion. At the one time it was proposed to have a merchant have on hands but 50 pounds of explosive and an individual who had more than one pound in his possession at one time must have a permit. Superintendent Pollock of the Char-

leroi Water company was present at the invitation of the council, the special purpose for which he was brought here being to learn whether the company would allow a meter to be put in for the fire plugs at the Macbeth Evans glass plant. This he declared the company would not allow but said that he would take the matter up with them. A number of questions were fired at him concerning the service at various places in the town, some of which he answered, and some of which he did not.

## MRS. PHIPPS HAS A NARROW ESCAPE

Yesterday at Denver, Col., a former Charleroi woman, the divorced wife of Lawrence C. Phipps, Mrs. Genevieve Chandler Phipps, the daughter of C. H. Chandler of Charleroi, had a narrow escape from death, at the hands of a desperate woman who threatened to blow her up with dynamite. The person who made the threat was finally arrested through a little trickery and is now being held in jail at Denver. She is known as Mrs. J. R. Cones, and has since the 6th of November been occupying a room at the American house, Denver.

The woman has made repeated attempts to gain admittance to Mrs. Phipps home but failed. Yesterday she succeeded in jumping in Mrs. Phipps automobile as she was driving an automobile through City park. After getting in the automobile, she talked quietly to Mrs. Phipps for a time and professed to be a magazine writer. Soon however she produced some dynamite with caps and threatened if Mrs. Phipps did not within an hour give her the sum of \$20,000, she would fire the dynamite and blow her to eternity. Mrs. Phipps was directed to drive to the Wolcott school for her daughter.

After getting the girl at the school, the automobile was driven to the office of the Internal Trust company. Explaining to the woman that she would have to get the money in the place Mrs. Phipps got out of the automobile and went into the bank, where she told her daughter to Special Officer McDonald, who went out to the automobile and after a parley succeeded in getting the child. When the officer returned the woman threw the dynamite at him but luckily it did not explode, and he arrested her and turned her over to the police.

## ASSAULT AND BATTERY, TWO PLUNKS AND COSTS

Yesterday morning Hamilton Johnson was before Justice of the Peace Wilson charged with assault and battery, the prosecutor being Bessie Perry. The parties are from North Charleroi. Johnson, it is said, abused his wife, Mrs. Friday Johnson, who was unable to appear, from the beating which she received at the hand of her husband, hence the daughter, Mrs. Perry, brought suit. He was fined \$2 and cost.

## DISMISSES APPEAL OF SUPERVISORS

Judge McIlvaine Hands Down Decision In Carroll Township Case.

### TAXPAYERS TO BE HEARD

In the matter of the appeal of the township of Carroll, the appeal of the audit of their account for the year ending March, 1908, made by the township auditors, Judge McIlvaine yesterday handed down an opinion dismissing the appeal at the costs of the appellants.

This is one of the actions growing out of the mixup in the accounts of that township. An appeal of the taxpayers from this same audit is yet to be heard by the court and in the opinion handed down the court's second assignment of error alleged in the auditors' report is not passed upon, as it will be dealt with more fully when the taxpayers' appeal is before the court.

Facts concerning the mixup in Carroll were stated in these columns yesterday. In the appeal just decided the parties agreed to the taking of testimony and the case was submitted to the court upon the testimony taken. The assignments of error to the township auditors' report are as follows:

"1.—The auditors wrongfully refused credit for the sum of \$150 paid to A. J. Fisher for his services as secretary of the road of supervisors for two years and wrongfully directed the repayment thereof."

"2.—The said auditors wrongfully refused credit for the sum of \$334.87 erroneously charged as cash in the hands of the supervisors, to be refunded by reason of errors."

## BOWLING MATCH ON COLONIAL ALLEYS

In a match game of duck pins last night on the Colonial alleys, a team captained by Frank Kelly won three straight games from a team captained by Mr. Wolfe, making a total of 1230 pins for the three games. Captain Wolfe of the opposing team had high score with 98, making this score both in the first and last game. He also had high average with 94 which is knocking them over. The Charleroi Bowling team goes to Fayette City tonight for a match game of both ten and duck pins.

## Recognized As Murderer Before Receiving Sentence

John Ramsey Alias John Stevenson Entered Plea of Guilty On Charge Of Entering And Burglarizing DeGarmo Home.

Yesterday before the sentencing by Judge McIlvaine of John Ramsey, alias John Stevenson, and John Brommer, to spend ten years in the penitentiary, and a fine of \$1 and costs, it was learned that the former was a murderer and for sometime a member of a band of desperadoes of Fayette county known as the Cooley gang. The men with two others were charged with the robbery of the DeGarmo home in Fallowfield township on the night of August 10. They had previously entered pleas of guilty. There remains one yet to be tried in connection with the robbery, William Bennett and Thomas Deats.

The identification of Ramsey as the one who killed a foreigner at Benwood W. Va. four years ago was made by an old man by the name of Tomlinson. When he spoke the name by which the man had been known at Benwood, Dewar Nickeson, the condemned man turned red and was greatly embarrassed.

That the man's name was Frank Ramsey and that he was born at Brownsville was attested to yesterday at Washington by Policeman McEl-Jowney of Charleroi, who formerly knew the man. He is about 40 years of age.

A reward had been offered for his apprehension by West Virginia authorities. Last night the police at Benwood were communicated with and said that they would take the matter up and if Ramsey is the one who committed the murder they have him properly punished. Ramsey has in the past served a sentence of eight or ten years in the penitentiary.

## INSTALLATION SERVICES FOR NEW MINISTER

Wednesday night at the First Presbyterian church, the installation services of the new pastor, Rev. J. T. Hackett will take place, and elaborate preparations are being made by the members for the affair. There will be pastors of different churches here to take part in the exercises and a nice program has been arranged, consisting of addresses and music. The principle address of the evening will be made by Rev. W. R. Farmer, an instructor in the Western Pennsylvania Theological seminary in Pittsburgh. Mr. Farmer is a speaker of note. He is the son of the first pastor of the local church and classmate of the present pastor, Mr. Hackett. The charge will be given to the people by Rev. W. C. Wycoff, D.D., of the Belnet Presbytery, Pittsburgh. The charge to the pastor will be given by Rev. William McKee of the First Presbyterian church at Monongahela. The installation prayer will be made by the Rev. Perrin Baker of Belle Vernon.

The exercises promise to be of more than ordinary interest and the public as well as the members of the church have been tendered an invitation to be present.

## CASES HEARD IN CRIMINAL COURT

"We want people to know that robbery is not a healthful employment in Washington county," was the stinging remark of Judge J. A. McIlvaine after passing 12-year sentences on Alex. Watson and George Matson for highway robbery. Watson and Matson were charged with holding up Ray Anderson on the old Pittsburgh pike on the night of September 26, and relieving him of his watch and revolver; also of holding up Mr. and Mrs. William McIntyre on the connecting railroad on the night of October 3 and securing \$30 from Mr. McIntyre. After being out a short time the jury returned a verdict of "guilty as indicted." The accused had nothing to say in their behalf and the court imposed a six-year sentence in each case, making 12 years in all.

The first case called yesterday was that of Samuel McGill, colored, of Bentleyville, charged with assault and battery on his wife, Annie McGill. McGill created much merriment by acting as his own attorney. Mrs. McGill testified that her husband came home on the night of October 11 in an intoxicated condition and struck her twice with his fists and she was obliged to flee for safety. She also testified that he had threatened to cut her heart out with a razor. The jury after a short deliberation returned a verdict of six months to the workhouse.

## SIXTY-ONE APPLY FOR ADMISSION

Night School Is Successfully Started In Fifth Street Building.

### EXTRA TEACHER NEEDED

The One Man It Is Stated Cannot Handle All The Classes.

The night school started off very successfully last night in the recently prepared room in the Fifth street school building, there being sixty-one applications for admittance to the school. These seemed to take an interest in the work and it is thought that nearly all of them will keep up with the studies. Among these were eighteen girls, and tonight it is understood this number will be increased.

Among those who appeared last night were persons of various ages, ranging from fourteen to sixty. Of these there were but four who could not speak or understand the English language.

There is a likelihood that there will have to be another teacher elected, for if the interest continues and the attendance does not become less it will be necessary to have another instructor. With the present number it is impossible for the one man to properly teach all the classes. The school is like an ungraded country school, and the classes range from those who are little more than able to distinguish the letters of the alphabet to those who are advanced almost as far as the High School. If the school board finds that there are enough pupils appear tonight, they will meet at once to elect a new instructor.

## ARRANGING FOR RALLY OF SUNDAY SCHOOL

Last night the teachers and officers of the First Christian church met at the home of Theodore J. Allen at North Charleroi, and made arrangements for a Sunday school rally to be held on Sunday November 22nd. On that day there will be a special program rendered by the Sunday school consisting of music and addresses and the Sunday school will try to have record number in attendance.

Taxes Must be Collected. Tax Collector B. L. Parsons, has been finally instructed to file liens on all properties for 1906 taxes remaining unpaid, after Nov. 14, 1908. Payment of 1906 occupation taxes must be arranged for not later than Nov. 30, to save extra costs. Office 502 Fallowfield avenue. 7612.

Henry. Thomas A. Henry a well known resident of this place died at his home on Seventh street of paralysis, this morning at 7:30 o'clock. The funeral will be from the Lutheran church Friday afternoon at 2 o'clock. Interment in the Charleroi cemetery. Mr. Henry was one of the pioneers of Charleroi. #### Forestry in Japan.

Just at the time when this country  
is beginning to struggle with the  
problem of husbanding forest resour-  
ces, of protecting its mountain slopes,  
and of improving the waterways, it  
is interesting to know that the Jap-  
anese have successfully attacked the  
same problem, before the land suffered  
severely from the evil effected follow-  
ing deforestation. The farsighted  
people of Nippon have foreseen the  
results of the destruction of their ex-  
tensive mountain forests, and have  
safeguarded themselves by placing all  
of these under government control.

The practice of forestry has been  
carried on in Japan for a longer time  
than in any other country. For 1,200  
years the people of Japan have been  
planting and growing forests, with a  
success that has been a little short of  
marvelous. Under careful manage-  
ment, the Japanese forests yield very  
high financial returns. This high  
yield is only made possible by the  
close utilization of every bit of the  
tree so that scarcely a twig is wasted,  
and by the improvement of the growth  
of their forests by carefully conducted  
thinning the tending. The woods are  
first thinned at the age of thirteen  
years, and then every five years after  
that up to the time of the final har-  
vest, at 120 years.

It was with the opening up of the  
hitherto inaccessible mountain forests  
that the Japanese government became  
most intensely interested in forestry.  
The mountains were still government  
land, so all that was necessary to pro-  
tect them was to place proper re-  
strictions on the sale and in cutting  
of timber. This was effected by de-  
claring the forests on the steep slopes  
as reserved forests, in which the only  
cutting should be done under govern-  
ment direction. The forests on  
agricultural lands, not needed for pro-  
tection, are classed as available for-  
ests and here the cutting is not so  
carefully restricted.

Thus Japan has effectually pre-  
vented the stripping of her mountain  
slopes before any great damage has  
been done. In some districts, where  
the mountains are near the towns,  
the steep slopes have already been  
cleared, and this has resulted in floods

and the washing down of the soil from  
the slopes on to the farm lands. But  
these cases have been exceptional, and  
have merely served as a warning,  
which Japan has heeded before it was  
too late to prevent widespread de-  
struction.

#### The County Institute.

The institute at Washington this  
year bids fair to be the best in the  
history of the Washington county  
schools. Superintendent Crumrine is  
working hard to complete a program  
that will eclipse anything that has  
ever been had and thus cause an in-  
crease of interest. The institute is  
the yearly gathering of the teachers  
and principals to an appointed place  
where there has been engaged at the  
expense of the county, instructors and  
entertainers. The purpose of the in-  
stitute is for the improvement of the  
teachers in the science and art of edu-  
cation, and according to the State  
laws must continue in session at least  
five days.

It is not necessary for the teacher  
of the Charleroi schools to attend the  
county institute, for the local schools  
are independent of the county and if  
they so desire may have an institute  
of their own. This year the teachers  
of this place will as usual make the  
trip to Washington to attend the in-  
stitute of the county. This was deemed  
the more advisable by the directors  
for the reason that the instructors at  
the county institute are better than  
those that the local board could afford  
to engage. It is possible that later  
in the year that there will be a rally  
here similar to that held last spring  
in the school hall.

#### The Wise Man.

The wise man does not too greatly  
burden the ear of his neighbor with  
the narrative of his calamities.  
These things are of almost infinite  
moment to him and they are with him  
day and night. If he is disposed to  
discuss them with all his friends and  
neighbors it is because of the truth  
that out of the abundance of the  
heart the mouth speaketh. But if he  
have a keen eye he will speedily dis-  
cern that his remarks are falling  
upon stony ground. For the person to  
whom he is talking also has his deep  
grief for his sore trouble or his lofty  
ambition and he would much prefer to  
talk about them. There is much sym-  
pathy in the world. Of course there  
is. But there is likewise a good deal  
of selfishness. It is not uncommon  
for every man to think of his own  
things and not on those of his neigh-  
bor. And when two men of that sort  
come in contact with each other there's  
likely to be considerable misunder-  
standing between them.

#### Another Important Deal.

The recent coal deal in Greene  
county, in which J. V. Thompson  
acquired 25,000 acres of coking coal is  
but another step toward the develop-  
ment of the rich field in that county.  
For this is what it will in reality  
mean. There is little doubt that Mr.  
Thompson will develop the lands as  
soon as he sees fit and or at least sell  
to some one who will open up mines  
there. This of course will mean the  
extension of railway lines a little  
farther into the interior of the county.  
The Greene county residents view  
the sale of the coal in some places  
with apprehension, for they fear that  
with the opening up of mines, will  
come destruction to their rich farms.

#### Electric Sparks.

The distances of nations are  
measured not by seas, but by ignor-  
ance, and their divisions determined  
not by dialects, but by enmities.

The field is open to talent and merit  
is sure of its reward. The gifts  
with which industry is crowned are  
her own.

Sloth makes all things difficult, but  
industry all things easy.

Even if Charlie Bentley does not  
get the Speakership of the house at  
the next session of the Assembly at  
Harrisburg, he can be relieved by  
the thought that at least one some-  
good in running for the position, viz.,  
provide the Observer, Reporter, of  
Washington, and the Notes, of  
Canonsburg, something to write  
about.

As proof that the President is  
chosen by the intelligent voters, those

who did not choose him are seen pay-  
ing freak election bets.

The Outlook announces that with  
Roosevelt's connection with the paper  
its editorial management will not  
change. That sweet dream will last  
until a day or so after March 5.

Uncle Joe Cannon, per his recent  
interview, is too unprogressive for  
this age. We want our forests reserved  
and also our coal and our water  
and other natural resources. And the  
Panama canal completed within the  
shortest time possible.

President elect Taft expects to take  
a few week's rest, but he will have  
to go far into the woods to get away  
from those who have all manner of  
advice to give.

Brayn's hope that the people will  
still adopt his policy must refer to his  
policy with regard to the man they  
should elect President. For, some  
time ago, it was his assertion that  
the people had already adopted his  
policy; and the people have certainly  
adopted the Roosevelt sort.

Politics will now take a back seat  
in the news columns to give prosperity  
a chance to command everybody's  
attention.

No desire to start trouble right  
away, but wish the new president  
would take notice that strictly fresh  
eggs are sixty cents a dozen. Either  
the hens or the trust certainly need  
looking into. Who had the probe last?

Montreal aviator says he intends  
to drop off the Flatiron building, New  
York, in his glider. Too thin. Not  
even such a promise will make men  
keep their eyes in the air while pass-  
ing that structure.

There are two reasons why some  
people don't mind their own business.  
One is that they don't have any mind  
and the other is that they don't have  
any business.

Charleroi has strenuous objections  
to being behind in anything, especially  
when there is such an old town as  
Monongahela in the lead. That's  
why the workers in the Christian  
church of this place are hustling so  
tremendously to beat out in the Sun-  
day school contest.

#### PACKET COLUMBIA

### IS LAID OFF

The steamer Columbia, the last  
packet operating out of Pittsburgh,  
gave up the unequal struggle between  
low stages in the upper pools in the  
Monongahela river and acid conditions  
of the water in the lower pools yes-  
terday. The crew was paid off and  
the packet tied up at the wharfbat  
to await a rise in the rivers.

#### GIVES INTERESTING

### TALK AT CHURCH

Last night at the Baptist church,  
Rev. Furman of Library gave an in-  
teresting talk in the interest of home  
and foreign missions. There are at  
present various ministers touring the  
country in the behalf of the missions  
it being the effort of a national Bat-  
tist society to raise a large sum in  
the United States, so that missions  
might be established and more suc-  
cessfully carried on in this and other  
countries.

#### Charter Has Been

### Placed on Record

The charter of "L'Union Des Tra-  
vailleurs Publishing company," of  
Charleroi, has been placed on record.  
The company is formed for the pur-  
pose of printing and publishing. The  
company is capitalized at \$10,000,  
divided into 1,000 shares at a par  
value of \$10 a share. The directors  
of the corporation are August Manieu,  
August Bissiaux, Louis Gozou, Fer-  
nand L. Meutzer and Zenoba Del-  
warte.

#### To Hold Euchre.

The social committee of the Char-  
leroi council, No. 1240, Royal Arcanum  
have issued invitations for a Euchre  
to be given in the lodge room in the  
Charleroi Savings and Trust company  
hall, Thursday evening, November 12.  
Playing will begin promptly at 8:15  
o'clock. The committee is composed

## ROAD PETITION

### IS ACTED UPON

A petition for a road in Carroll  
township beginning at a point where  
the road leading from Pigeon creek  
intersects another road at a point on  
the west side of and near the old  
Galbraith school house and extending  
thence to a point in the ridge road  
leading from North Charleroi to Mon-  
engahela at a gate near the dwelling  
house on the lands of D. W. Craven  
was made to the court yesterday.  
W. E. Ward Charles Vanvorhis and  
Josiah Blythe appointed viewers.

## VIEWERS ARE

### APPOINTED

Viewers for the road in Carroll  
township, for viewers to  
assess damages occasioned to her  
property by the reason of change of  
grade on Crest avenue, the court yes-  
terday at Washington submitted the  
following panel: Taylor Foreman,  
Henry Sheets, J. H. Bowers, John  
H. Moffitt, Samuel Mitchner, Charles  
O. Frye, Kerfoot Daly, Joseph God-  
dissart, William Clee, W. R. Mc-  
Kean, John L. McKean, John W.  
Berryman, W. D. Pollock, M. Wells,  
Cary Piper.

#### DEMONSTRATIONS

### BRING MANY

Mr. C. Dewar of Newcastle, In-  
diana, is here in the interest of the  
Hoosier Kitchen Cabinet now being  
demonstrated at W. B. Pfeighardt's  
store, 530-52 Fallowfield avenue.

The display of these very useful  
kitchen cabinets is an elaborate one  
and Mr. Dewar has not experienced  
any difficulty in interesting the house-  
keepers of this and neighboring towns  
in the Hoosier Cabinet.

The demonstration yesterday and  
today was attended by big crowds  
and the sale of cabinets has been very  
large. Each person is entitled to a  
chance on one of these famous cabinets  
that is to be given away absolutely  
free. So be sure to call and deposit  
your coupon at Pfeighardt's.

#### Standing of Clubs.

The standing of the clubs following  
the results of the soccer games Sat-  
urday in the Monongahela Valley  
league follow:

	W	L	Tie	Pts
Roscoe	6	1	0	12
Dunlevy	5	1	1	11
Braddock	4	2	1	9
Charleroi	3	2	2	8
Donora	2	4	1	5
New Eagle	2	5	0	4
Gallatin	5	2	0	4
McKeesport	1	7	1	3

Games this week. Nov. 14—New  
Eagle at Braddock. Dunlevy at  
Gallatin. McKeesport at Charleroi.  
Donora at Roscoe.

John Trubeck who was badly in-  
jured in the explosion at Donora last  
week, died in the Memorial hospital  
of Monongahela yesterday. When  
taken to the institution it was evident  
the man's injuries were mortal.

Trubeck was a Slav and was 32  
years of age. The remains were  
taken to Donora today for interment.

#### Will Bring Results.

Mail Wants and Lost adds bring  
results. Recently a man from an up-  
river town lost a satchel. It was  
advertised in the Mail. The satchel  
was found and yesterday the gentle-  
man came to this office secured his  
property and paid for the add, profess-  
ing himself much pleased with the  
success of the small add.

#### Canceled the Show

### Booked for Tonight

On account of Manager Coyle not  
desiring to bring a show to this place  
that is not of the best, the perfor-  
mance for tonight, "The Power of the  
Cross," has been canceled and will  
not appear. Those holding tickets  
for this performance should save them  
for the performance Thursday night  
when "The Boy of The Streets" will  
be produced. This play is one of the  
higher kind and wherever played  
brings large crowds. The story is one  
from real life and is of heart stirring  
interest.

## AFTER THE GRIPPE Vinol Restored This Man's Strength

"Several years ago I was attacked by a severe case of grippé, which left me with a hacking cough, soreness in my chest, and bronchitis. I took nearly every kind of cough syrup sold on the market, besides medicine given me by physicians.

I received no permanent relief until my druggist asked me to try Vinol, and after taking three bottles I was entirely cured.

I believe Vinol to be the greatest blessing ever offered to the public, as it does what is claimed for it." R. B. R. Hicks, Maplesville, Ala.

The reason Vinol cures chronic coughs, colds and pulmonary troubles is because it contains tonic iron and all the healing and body building elements of cod liver oil but no oil.

Vinol is also unexcelled as a strength builder for old people, delicate children, weak and run-down persons, and after sickness.

## How Queen Bess Dined.

The setting out of the dinner of Queen Elizabeth was a ceremonious function. First came a gentleman with a rod, followed by a gentleman carrying a tablecloth, which, after they had knelt reverently three times, was spread upon the table. Then came two others, one with a rod, the other with a saltcellar, a plate and bread. They knelt three times, placed the things on the table, knelt again and retired. Next came a lady in waiting, followed by a second. The first lady, dressed in white, after kneeling three times, approached the table and solemnly rubbed the plates with the salt. Then entered twenty-four yeomen of the guard clad in scarlet and each carrying a dish of gold. These dishes were placed upon the table, while the lady taster gave to each of the guards a taste from the dish he had brought in for fear of possible poison. These guards were selected from the tallest and strongest men in all England. At the close of this ceremony a number of unmarried ladies appeared and with great solemnity lifted the various dishes and carried them to the queen in her private apartments.

Then came the trees, the birds, the fishes and all the animals, with the Grizzly Bear the last and the greatest of all—The Origin of Man.

## Coal Used by Romans.

It is believed by some historians that coal was used by the Romans on the continent and by the Britons on the island before the arrival of Caesar. As early as 1224 Henry III. granted a license to dig coal near Newcastle, but a few years later the use of coal was forbidden in London, the smoke being deemed prejudicial to public health. In 1300 the London gentry petitioned the king against its use, declaring that in spite of his royal order certain malicious persons persisted in burning it. Complaints were brought from Newcastle to London in 1381, during the reign of Richard II. By the year 1400 coal was commonly burned in London as a fuel, though 250 years later, in the reign of Charles I., its use was far from being general throughout England. Anthracite coal, which, except the diamond, is the purest form of carbon known, was first used by a Cornish miner named Goro H. in 1778 and as a domestic fuel by Judge Jesse Fell of Wilkesbarre, Pa., in 1868.

## A Fairy Tale Kingdom.

The kingdom of Uganda is a fairy tale. You climb up a railway instead of a beanstalk, and at the end there is a wonderful new world. The scenery is different, the vegetation is different, the climate is different, and, most of all, the people are different from anything elsewhere to be seen in the whole range of Africa. Instead of the breezy uplands we enter a tropical garden. In place of naked painted savages clashing their spears and gibbering in chorus to their tribal chiefs a complete and elaborate polity is presented. Under a dynastic king, a parliament and a powerful feudal system an amiable, clothed, polite and intelligent race dwell together in an organized monarchy upon the rich domain between the Victoria and Albert lakes. —Winston Churchill, M. P., in Strand Magazine.

## A Promise Unfulfilled.

O. Henry, the well known story writer, once promised the editor of a magazine that he would deliver a short story to him on the following Monday. Several Mondays passed, but the story was refractory, and the story was not forthcoming. At last the wrathful editor wrote this note:

My Dear O. Henry—If I do not receive that story from you by 11 o'clock today I am going to put on my heaviest shoes, come down to your house and kick you downstairs. I always keep my promises.

Whereupon O. Henry sat down and wrote this characteristic reply:

Dear Sir—I, too, would keep my promises if I could fulfill them with my feet. —Success Magazine.

## A Defect.

A little girl was playing with a girl friend of her own age on the porch of her home. An elderly gentleman, her mother's father, and an elderly lady, her father's mother, were sitting on the porch talking pleasantly with each other. The little girl had often wished her grandparents were of the same name, like other children's grandparents. Presently the little guest remarked, "What a nice grandmother and grandfather you have!" "Oh, yes," she said, with a sigh, "but they don't match."

## An Explanation.

"How long has this restaurant been open?" asked the would be diner. "Two years," said the proprietor. "I am sorry I did not know it," said the guest. "I should be better off if I had come here then." "Yes?" smiled the proprietor, very much pleased. "How is that?" "I should probably have been served by this time if I had," said the guest, and the entrance cordial vanished. —Harper's Weekly.

## Cause and Effect.

Old Hunk—When I came to this town sixteen years ago, real estate in the block where I live was higher than it is now.

Old Hewlins—It would be so in any block where you set down. —Chicago Tribune.

## Generous.

Mr. Smith (in street car)—Madam, take my seat. Mrs. Jones (who has been standing fifteen minutes)—No, thank you, I get off at the next corner. Smith—That's all right. So do I.

It is important to keep back every body from the door of the house.

## AN OLD INDIAN MYTH AN OLD INDIAN MYTH

It Tells a Curious Story About the Creation.

## MOUNT TAHOMA MADE FIRST.

Then Came the Trees, the Birds, the Fishes and All the Animals, With the Grizzly Bear the Last and the Greatest of All—The Origin of Man.

The Indians say that the Great Spirit made Mount Tahoma the first of all. Boring a hole in the sky, using a large stone as an anvil, he pushed down snow and ice until they reached the desired height, then stepped from cloud to cloud down to the great big pit, and from it to the earth, where he planted the first trees by merely putting his finger into the soil here and there. The sun began to melt the snow, the snow produced water, the

water refreshed the trees and made rivers. The Great Spirit gathered the leaves that fell from the trees, blew upon them, and they became birds. He took a stick and broke it into pieces. Of the small end he made fishes, and of the middle of the stick he made animals, the grizzly bear excepted, which he formed from the big end of the stick, appointing him to be master over all the others.

Indeed, this animal grew so large, strong and cunning that the Creator somewhat feared him and so hollowed out Mount Tahoma as a wigwam for himself where he might reside while on earth in the most perfect security and comfort. So the smoke was soon to be seen curling up from the mountain where the Great Spirit and his family lived and still live, though their hearth fire is slight no longer, now that the white man is in the land. This was thousands of years ago.

After this came a late and severe springtime, in which a memorable storm blew up from the sea, shaking the huge lodge to its base. The Great Spirit commanded his daughter, then little more than an infant, to go up and bid the wind to be still, cautioning her at the same time not to put her head out into the blast, but only to thrust out her little arm and make a sign before she delivered her message.

The eager child hastened up to the hole in the roof, did as she was told and then turned to descend, but her curiosity impelled her to look at the forbidden world outside and the rivers and trees, at the far ocean and the great waves that the storm had made as heavy as the forest when the snow is on the fir. So she stopped and put out her head to look. Instantly the storm took her by the long hair and blew her down to the earth, down the mountain side, over the smooth ice and soft snow, down to the land of the grizzly bears.

Now, the grizzly bears were then somewhat different from what they are at the present time. In appearance, it is true, they were much the same, but they walked then on their hind legs like men and talked and carried clubs, using the fore limbs as men use their arms. At the foot of the mountain, at the place where the child was blown to, lived a family of grizzlies. The father grizzly was returning from the hunt with his club on his shoulder and a young cub in his hand when he saw the suffering little waif lying on the snow with her hair all tangled about her.

The old grizzly, pitying and wondering at the strange, forlorn creature, lifted it up and carried it in to his wife to see what should be done. She, too, was pitiful and fed it from her own breast, bringing it up as one of their family. So the daughter of the Great Spirit grew up, and the eldest son of the old grizzly married her, and their offspring was neither grizzly nor Great Spirit, but man.—Forest and Stream.

## An Original Oath of Allegiance.

In the old days when the Spanish province of Aragon was a proud and independent monarchy the people used when choosing their king the following singular form of election:

"We, the freeborn inhabitants of the ancient kingdom of Aragon, who are equal to you, Don Philip, and something more, elect you to be our king on condition that you preserve to us our rights and privileges. If in this you should fail we own you for our king no longer."

## The Red Ferns.

"Stop the auto!" "But, sir—" "I think I saw some red ferns." "Better lemme keep on, boss," advised the chauffeur earnestly. "Then red ferns is the local constable's whiskers." —Washington Herald.

## The Open Window.

The best part of a modern house is its windows. To keep these open day and night and to make the air inside approach as nearly as possible the air outside should be the first business of the housekeeper.—Good Health.

## A Precaution.

# BERRYMAN'S

Distinguished Showing of Hand-  
some Tailored Suits  
At \$25.00

## The Season's Choicest Creations

That the particular woman whose position demands that she be well dressed may fully realize the advantage of supplying her needs here. We have collected for this week's selling a most distinguished showing of tailored suits at \$25.00. The styles are exclusive and represent the best work of noted artists. Through weeks and months of steady wear these suits will hold their shape. The best quality of linings and casvass are used, and the satin that is used in the coat as lining is so reliable that we can highly recommend it.

These suits are made of imported worsteds, plain broadcloths, herringbone stripe and fancy all wool fabrics. Colors are black, brown, navy, green and new gray—jackets lined with best satin—strape 1 and tailored in a way that appeals to particular dressers.

In justice to your own interest this offering demands your closest consideration.

### News From the Millinery Department

It is essential that your hat and costume match—with this fact in mind this store can be of the greatest service to you. The collection of stylish millinery is sufficiently extensive to please anyone. The mid-season showing of new hats will be on exhibition this week. Miss Ward will take special pains to see that you get special attention.

a lot for Style in your clothes, that's all the more reason for being particular to buy "ALCO SYSTEM CLOTHES".

Some clothes are "long" on quality and "short" on style, or vice versa; "ALCO" Clothes are "long" on both quality and style, but in buying a suit or overcoat, you pay only for quantity—the style is an added attraction that places "ALCO" Clothes ahead of other makes.

We don't say much about the price, for that is the last thing to be considered, and when you have once inspected "ALCO SYSTEM CLOTHES" you'd buy them if the price was double.

### SKIN TORTURES

Thousands of wretched people are miserable—driven almost mad by the terrible itching and burning sensation of Eczema and other skin diseases. Many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are caused by little germs that attack the skin externally, which can be rooted out in a hurry, leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief—but a clearing of it all away absolutely and permanently.

**THE D. D. D. PRESCRIPTION**

a specific formula, put up in sealed bottles with authentic label, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy.

**Cleansed within one month.**

For a number of years my husband has been suffering with a terrible case of eczema. He had consulted with the best skin specialists in the city, but they could not cure him. The itching was terrible. I was told by a friend of the D. D. D. treatment and began using it at once. The first few applications eased the itching, and in a month's time he was completely cured.

Yours truly,

## SHOES FOR MEN WHO KNOW

**A**S told on the street!  
"Hello, George, where did you get those shoes?"  
"At Beigel's Shoe Store."  
"Well, I might have known it, for they always keep the best of everything in the shoe line."  
And you paid only \$3.50 for them?  
Well, I declare, I am going right over there and get me a pair just like them, for they are the best shoes for the money I have seen in many a day."

And so our fame spreads and our business grows. We'll take pleasure in showing you what we can do for you. Sir, in the shoe line.
